Amass Product Specification

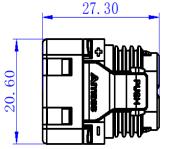

-、 Product Model: LFB/K30-M

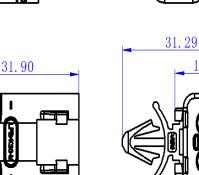

Product Model	Product Name	Pi cture
97019-F.O	LFB30-F Orange plastic shell	
970 20 -M.O	LFB/K30-M Orange plastic shell	
91022-F.S	LC30-F Copper Components	\sim
99030-M.S	LC30-M Copper Components	

\Box , Product Application Description

LFB/K series products are waterproof LC series products, which have all the advantages of LC series products. The product has a better waterproof effect, and the waterproof ability can reach IP67, which can adapt to the waterproof needs of most machine products.

四、Technical Parameter

Electric Characteristic			
	20A MAX (14AWG $ riangleq$ 30K)		
	25A MAX (12AWG $ riangleq$ 30K)		
Current Dating	25A MAX (14AWG $ riangleq$ 40K)		
Current Rating	30A MAX (12AWG $ riangleq$ 40K)		
	30A MAX (14AWG $ riangleq$ 55K)		
	35A MAX (12AWG $ riangleq$ 55K)		
Withstanding Voltage	600V DC		
Insulation Resistance	≥2000MΩ		
Contact Resistance	≪0. 6mΩ		
Mechanical Characteristic			
Plug Life	100 Times		
Finished Product Insertion Force	≪5.0kgf		
Finished product pulling force (with buckle)	≥8.0kgf		
Salt Spray	48h		
Connection Type	Riveting		
Working Environment			
Protection Level	IP67		
Applicable wire insulation diameter range	Silicone Wire3.5mm~5.0mm		
Work Temperature	-20°C to 120°C		
	UL94 V-O (Wall thickness 0.8mm)		
Materials Flame Level	UL94 V-O (Wall thickness 0.8mm)		
Materials Flame Level Material	UL94 V-O (Wall thickness O.8mm)		
	UL94 V-O (Wall thickness O.8mm) PBT, Color:Orange		

五、Transportation And Storage Condition

- Products should be stored in a clean, dry environment, no acid, a) alkali or other corrosion around the warehouse Sexual gas.
- The storage temperature of the product is $-10^{\circ}C \sim 40^{\circ}C$, and the
- b) relative humidity is less than 80%.
- The silver-plated parts of the product should be stored away from c) light, sealed and sealed, and long-term air exposure or contact with sulfide should be prohibited, and bare hands should be avoided.
- The product can be used for conventional transportation, d) transportation should avoid collision, violent vibration, rain and snow attack, flooding and so on.

Use carefully

Do not use when external force is applied to the connector
